

New smoking fetish video added at [Smoking Flicks](#)

We've added an exclusive NEW smoking fetish movie at [Smoking Flicks](#) – the smoking movie streaming and video download site.

BRAND NEW RELEASE SHOT IN HD! Alexis is smoking in bed, touching herself lightly through her lingerie, when her friend Jacqueline shows up. First they share a cigarette and some intimate touching. Then they light their own cigarettes and go to town with smoky kisses and smoke exchanges, smoky titty and pussy licking – finally using fingers and a pink vibrator on each other. The scene ends with an afterglow cigarette. The action is obviously real and very hot; the non-stop smoking is straightforward and strong. There is natural sound and a little dialogue; the video is shot in the IRL Platinum up-close-and-personal style.
